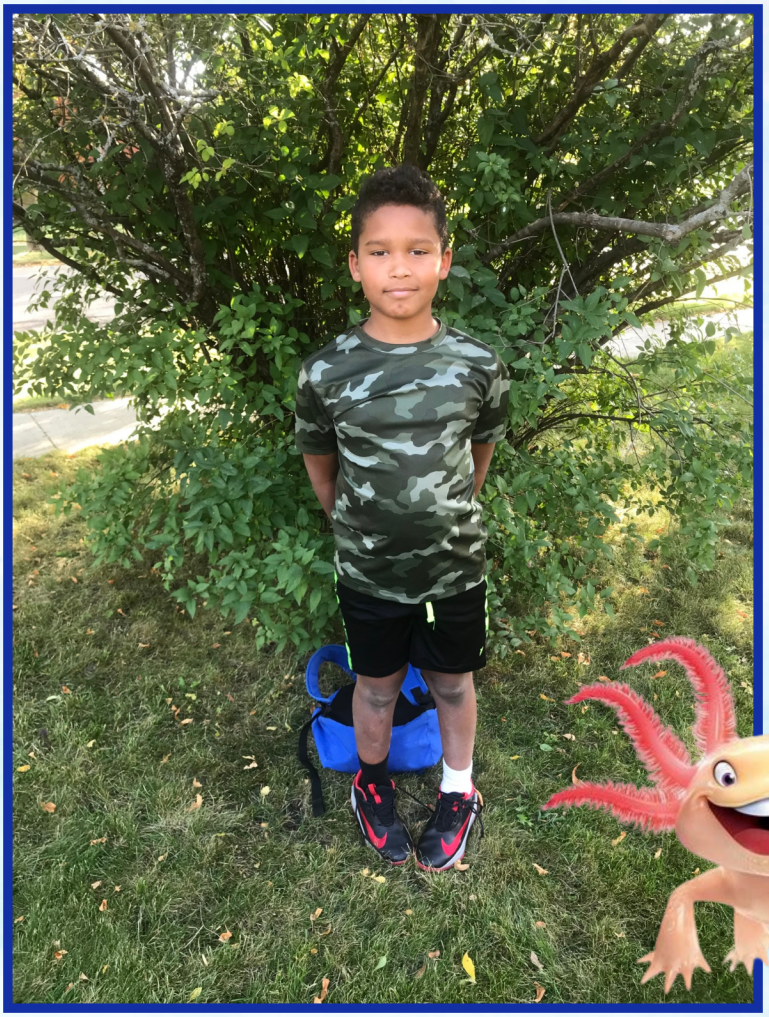
JEREMIAH



This sweet guy is almost nine years old and he is full of adventure! JJ is a natural athlete who loves sports (especially football), being outside, playing video games, hiking, swimming, playing Beyblades, and creating with Legos. He loves animals and would like a cat, but if your family is allergic to furry pets, no worries! JJ REALLY, REALLY wants an axolotl, which has no fur at all!

JJ is a third grader this year and is enjoying playing football. He would do best in a patient, loving, two-parent family that can provide consistency and structure in their day to day routine or a single parent family who is able to do the same. JJ really needs a strong male role model. He has significant relationships that are important to him and would like to keep those connections in the future, so it will be important for his adoptive family to be open to that.

If you feel that you would like to know more about adopting JJ, please contact Nancy at 701-356-8023!
